What a great idea and invention. Works great! Way better than nails. [This review was collected as part of a promotion.]

Yes, I recommend this product.

**Very clever design**

I have been using these hooks for years, and they are fantastic. They are durable and they look great, self adhesive tape is very strong yet it is quite easy to remove if you need to.

**Avoid these products**

Bought several of these to mount souvenirs, followed instructions to the letter (especially the weight limits), and they lasted all of three days before falling down, peeling paint from the wall, scratching a plaque and breaking a memento.

No, I do not recommend this product.

**Love them!**

I never write reviews, but thought this product deserves my opinion. We have a walk-in shower and didn't want to hang a towel rack inside or outside of the shower. We purchased the 3 and 5 lb. hooks to hang towels, wash cloth, and scrubber. The towel hooks aren't close to the water, but the other 2 smaller ones get wet every time we shower. We put them in 4 years ago and have never had any issues. They are still hanging and absolutely Love them. Now anytime we want to hang anything - it is with 3M Command Hooks. Thank you for a great product!

Yes, I recommend this product.

**EXTREMELY DISAPPOINTED**

After reading multiple reviews about this product, i bought 3 of the Large Command Hooks to hang my curtains. Followed the instructions accurately. The total weight of the curtains plus the rod was 3.5 lbs. Less than the 5 lbs advertised for this product. Waited for more than 6 hours before i hung my curtains. Less than 12 hours later my curtains came crashing down doing some damage to my floors. Needless to say, I will not use this product again. Now the wall has to be patched and painted. EXTREMELY DISAPPOINTED

No, I do not recommend this product.

**Need plastic replacement that mates to strip**

I've used this hook for years but yesterday the plastic piece in which the hook connects to, broke. Is a replacement available or should I just replace the whole hook assembly? It seems a shame to do so.

**Yes**, I recommend this product.

**Gaps, rattles**

The hook does not lie flush against a wood door. The gap widens even more at the top once a towel is hung. It rattles when I hang the towel and rattles when I remove it. I had expected the design to incorporate an "angled" mounting design, so that the hook would wedge itself against the door. Very disappointed. [This review was collected as part of a promotion.]

**No**, I do not recommend this product.

**Great for hanging backpacks and jackets**

I love all my products. I use these to hang my grandson's backpack and jackets on. They are decorative and make it so much easier to find everything when I'm in a rush in the morning to get him off to school. [This review was collected as part of a promotion.]

**Yes**, I recommend this product.
