3M™ 710 Bridge Splice Connector can be used with either straight-only connectors or straight/half-tap connectors to allow pluggable, 3-way splices, 25 pairs at a time.

3M™ 710 Bridge Splice Connector is made from flame-retardant, engineering-grade plastic. This connector has a moisture-resistant compound that fills all voids to eliminate air or moisture pockets while maximizing the space constraints. It is designed for aerial, underground or buried applications in an outside plant, or for making connections in central office mainframe distribution systems in an approved enclosure.

- For PIC insulated conductors
- Accommodates 26 to 22 AWG conductor sizes
- Sealed closure
- Connector with filled composition
- 384/pack
