NetworkAIR CW Features & Benefits

Availability

Steam humidifier

Humidity is managed through a self-contained steam canister humidifier for maximum efficiency and ease of maintenance. The pure-steam canister maintains consistent capacity output, and requires very little scheduled maintenance.

Manageability

Microprocessor controller

Provides proactive control and real-time monitoring via a four line, eighty character, alphanumeric display.

Protection

Air filtration

Removes dirt and other particulates from the intake air for cleaner supply air.

Serviceability

Front service access

The system has full service, front access for routine servicing of components. Front access also narrows the footprint of the system making it possible for units to be placed side by side.

Product Distribution
